COLOR SHADE VARIATION

Variations in color, shade, and texture are inherent in ceramic tile. Several pieces should be examined collectively prior to installation.

Grout Joint Recommendation: Approximately 3/16”

APPLICATION

Appropriate for interior and exterior floors and walls in non-freezing temperatures. Ceramic tile floors, like other types of glazed floors, can become slippery when wet. Take extra care when selecting a floor product that will be exposed to conditions such as liquids, grease, or oil. Always follow proper installation methods.

A series recalling the look of Italian Travertine, Roma™ offers a fully coordinated glazed ceramic floor program. Four colors that emulate the look of natural travertine in a variety of sizes, give numerous pattern possibilities. A unique mosaic listello and listello corner plus a mosaic wall deco complement the series beautifully.
